Ensuring further accessibility

The Chamber notes with satisfaction the positive developments relating to the issuing of a port notice which designates landing places for the provision of a fast ferry service by means of a passenger High Speed Craft between the Grand Harbour in Valletta, and the Mġarr Harbour in Gozo, and the possibility for operators to start offering the service as of the 1st June of this year.

The liberalisation of the market for this service should ensure further accessibility for Gozo providing commuters, visitors and people attending meetings in Malta and in Gozo an alternative viable option, reducing travel time between the two islands for persons using this type of service.
