### **The Launch of the New Fast Ferry Service between Malta and Gozo**

The Gozo Business Chamber positively notes the launching of the fast ferry service between Gozo and Valletta today.

The Chamber consistently believes that accessibility in all its forms is indispensable for Gozo's economic development.

The fast ferry service is another important milestone to ensure multimodal forms of accessibility and connectivity between the two islands. The Chamber believes that this can lead the way for new economic niches especially in the cruise liner sector, while benefiting commuters and Maltese travellers alike.

Government's decision to liberalise the market was essential for this service to being implemented. The price sensitive and consultative approach adopted by both operators also augurs well for the success of this venture.

All this shows that Government's commitment, coupled with the private sector's willingness to invest can create a positive approach while finding solutions from which all can benefit.
